MINING, BUSINESS AND STOCKS.

IANY CHANGES MADE BY FAIRVIEW MERGER

ages Are Cut, Union Gives Up Char ter, Bank Decides to Quit Business And Postoffice to be Changed.

Fairview. June 15 .- The town of tirview seems about to undergo a redeling all around, since the merger the Nevada Hills and Fairview

The new management has adopted a w scale of wages, it is understood, d has given notice that the mines Il not be governed by union rules. new scale of wages took effect the first of this month, and is as flows: Miners, \$4 per shift; muckers, p men and chuck tenders, \$3.75; combin laborers, \$3.50; mechanics, \$5; tim-rmen, \$4.50. The local miners union I right, \$4.50. The local miners union is said to have held a meeting last hursday night, and after some discussion decided that it would be used to make any resistance to the it in wages, and the edict of the trendered.

the back of Douglass & Jarvis, then has been kept open for a long the in anticipation of business in the strict, has decided to discontinue siness, and notified depositors to ine and get their money. As the town of Fairview is some dis-less from the mines, a petition is ing circulated to have the postoffice

pved up the gulch DREAMY DAY OF TRADING.

am Prices Rule the Day on Local Se-

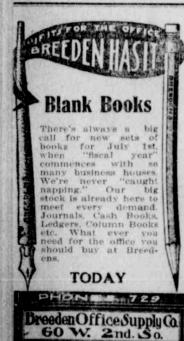

The local market looked like a penny rade on a poor day during the morn-g session today. One half cent stock d one-quarter cent securities were pre liberally dealt in than the more indard stocks. Everything on the

g session today. One half cent stock of one-quarter cent securities were are liberaly dealt in than the more undard stocks. Everything on the ard with the exception of Ohio Coper was demeralized. The bears goug-out great chunks of prices in the tive Tintic securities and left big see behind. The greatest loser today was Cololo which depreciated \$130,000 from the ling price yesterday morning. Iron ossom showed a depreciation from sterday's market of over \$70,000. Acding to the prices this morning the fire depreciation in stocks, according to the selling prices as compared the yesterday, was better than a larter of a million dollars on the 14 ocks faded in. Half cent stock fled in East Tintic Development the and quarter cent stuff to the exhibit of 10,000 shares was disposed of der the name of Tintic Combinator.

folorado sold at 39 cents, the lowest years. Sioux Consolidated was tak-in at 17½ cents. Fron Blossom, with or better showing than when it sold \$3.40, without a pound of ore in tht, sold at 83 cents. Tintic Central d at 10½ cents this morning, the good gel of the buying side apparently ving deserted the market in this ok.

he total number of shares of sites, and priced stocks disposed of this tring was 27,100 shares, for which broker paid out \$2,719.50, the smalt amount of trading in ten years. In the curb market the sales were shares of Opex at 27 cents, while 90 shares of Bingham Copper were need of at 23 cents.

Property. Rhyolite, June 15 .- There is another deal on for the sale of the Dealth Valley Big Bell property, which adjoins the estate of the Keane Wonder in the

Salt Laker Examines Death Valley

Funeral range. William McKinney, a Salt Lake min William McKinney, a Salt Lake mining man, came last week and went out to the property with J. E. Busch and Engineer Bob Armstrong. After looking over the claims, Mr. McKinney said that the Big Bell has the largest body of exposed ore at surface that he has ever seen. He was well pleased.

Several engineers have measured the outcroppings of quartz and sampled same, and their reports show in the neighborhood of 25,000 tons of ore in sight in the croppings that will run

sight in the croppings that will run \$12 or better, together with 15,000 tons The Big Bell outcrops are said to be even larger than those on the Keane Wonder, both being quarrying propositions. The ore is of such a grade that a milling plant close by would be required to admit of a reasonable profit.

CONCENTRATES.

Tony Jacobson, general manager of the Columbus Consolidated, is at the mine et Alta.

Jesse Fox has returned from a trip to the mines at Bannock and other places near Battle Mountain.

Frederick Lyon, assistant managing director of the United States Smelting, Refining & Mining company is in the city on business,

George E. Gunn has returned from the east where he has been for some time on business.

General Manager Jules Labarthe of the Mason Valley Mines company and Duncan MacVichie, general man-ager of the Nevada-Douglas mine and the Nevada Copper Belt railroad, left esterday for the Mason district in

Deep Creek residents, on account of the trouble the Western Pacific is having with its road, do not expect to receive much benefit from the road for another year. George C. Woodman and F. H. Woodman, owners of the Woodman properties, have hung on for a long time and declare they will hang on much longer. It is declared that a concentrating mill would be of great assistance to the country as it would enable them to ship ore which is now impossible. Charles Murdock, operating the Spotted Fawn on Dutch mountain is said to have cut a four foot veln of ore averaging from \$60 to \$80 a ton.

MORE RICH ORE IN COTTONWOOD CANYON

Storm Leads Man to Discover Near Big Mitt and Other Properties-Values Run Very High.

While taking refuge from a sudden rainstorm in Big Cottonwood canyon about two months ago, Myra Brewer of Salt Lake made a mineral discovery which gives promise of amounting to omething above the ordinary. He and his associates, Warren Holdaway of Provo and Enoch Stuart of Sait Lake, own eight claims up Big Cottonwood, not far from the Big Mitt and Jefferson properties. They are known as the Copper King and Verda claims. On the property they found considerable ore which runs from 130 to as high as 1300 Copper King and Verda claims. On the property they found considerable ore which runs from \$30 to as high as \$300 to the ton, in silver, copper and gold. Choice pieces of float had been previously picked up on the property which gave returns of \$26,000, but the ledge from which they came was apparently impossible to discover. Two months ago when Mr. Brewer was driven to shelter under the protruding ledge, he had considerable time on his hands. He began picking indiscriminately about the opening. Much to his astonishment, he had

time on his hands. He began picking indiscriminately about the opening. Much to his astonishment, he had hardly driven his pick into the ground when he turned up some decomposed white quartz strongly discolored with copper stains. More effort brought out more ore, and now at least two carloads of rich ore have been found in the place. Three men are at work and by next week they expect to increase the force to 10. This ore was discovered at the foot of a nearly perpendicular 1,000 foot ledge, with a distinct crack running from top to bottom, and ore has since been found along this aperture, down which the values discovered in the opening below must have filtered in years gone by.

The property shows a distinct contact between lime foot wall and quartz porphyry hanging wall with four to five inches of talc between. The talc has not been assayed, but the decomposed white quartz in three assays showed \$30, \$50 and \$300, mostly in gold and silver, with some copper.

It is proposed to start men tunneling

\$30, \$50 and \$300, mostly in gold and silver, with some copper.

It is proposed to start men tunneling at once on the vein at the foot of the ledge which will give a vertical depth of close to 1,000 foet, the vein matter measuring 10 feet across.

The property is but six miles from the Murray smelters. Wagons can drive within 150 feet of the mouth of the proposed tunnel. A wagon haul of \$1.50 a ton to the smelter has been secured, and the intention is to at once

cured, and the intention is to at one take out the two carloads and ship. It is claimed that the Big Mitt erty near by some time ago shipped 6,500 pounds of high grade which brought \$33,000 returns.

PROPERTY IS TRANSFERRED.

(Special to the News.)

RAPID GROWTH OF RELIGIONS

Census Bureau Says It Is Faster Than Population in Principal Cities.

INCREASE IN ALL BIG TOWNS

As Compared With 1890 Report Shows Gain of 90 Communicants for Each 1,000 Population.

(Special to The News.)

Washington, D. C., June 15 .-- Much reater than the rate of increase in the population of the principal cities between 1900 and 1906 was their gain in the number of religious organizations and communicants or members, according to part I of the special U. S. census report on the census of religious bodies for 1906, now in press. It is stated that, for the area outside these cities, the rate of increase in the number of organizations was approximately the same as the rate of increase in population and in the number of communicants or members it was considerably greater.

In the general tables and the textual discussion in the report the 160 principals.

In the general tables and the textual discussion in the report the 160 principal cities, those having 25,000 inhabitants or more in 1900, were divided into four classes, according to population; Il cities of the first class, having over 300,000 population; 27 cities of the second class, having from 100,000 to 300,000 inhabitants; 40 cities of the third class, from 50,000 to 100,000 population; and 82 cities of the fourth class, having from 25,000 to 50,000 inhabitants.

NOTABLE INCREASE.

The report declares that, among the different classes of cities, the first class showed the most notable increase, more than doubling the number of organiza-tions and communicants; the third and fourth classes followed closely; while the second had a much lower rate, Out-side the principal cities the rate of in-

rease was even less.

The number of communicants or members in each 1,000 of population in 1906 was, for the principal cities, 469; for the whole country, 391, and for the sections outside of the principal cities. 363. The ratio of communicants to population was considerably greater for the principal cities than for the country as a whole. Comparing the directed transfer of cities it appears that the ratios for cities of the first and the ratios for cities of the first and second classes were considerably smaller than for the other two classes. As compared with 1890 the report shows a gain of 90 communicants in each 1,000 of population for the principal cities, and of 51 outside of them. Among the different classes of cities, the largest gain, 106 communicants per 1,000 population, was found in the cities of the third class. The smallest gain was in those of the first class and the next smallest in the second class.

REASON FOR HIGH RATIOS.

It is affirmed by the report that the high ratios of communicants or members to population shown for the principal cities, as compared with the area outside those cities, are due chiefly to the greater strength of the Roman Catholic church in the cities; and the greater proportionate increase in communicants or members between 1890 and 1906 shown for these cities is said also to be largely due to the same cause. The report observes that the fact that in 1906 the number of principal cities was larger by 36 than in 1890, and that in addition, during the 16-year interval, a considerable territory had been annexed to various cities, augments to a noticeable extent the rates of increase for the area outside those cities. It is said that the latter fact does not materially affect the changes between 1890 and 1906 in the ratios of communicants or mem-REASON FOR HIGH RATIOS.

that the latter fact does not materially affect the changes between 1890 and 1996 in the ratios of communicants or members to population.

There were 4.082,039, or 32 per cent, more female than male members in continental United States in 1996, while continental United States in 1996, while in the principal cities the excess of female members was proportionately less, being 960.526, or 23.5 per cent. Comparing the different classes of cities, it appears that in those of the first class the excess of female over male members was only 18 per cent; in the second class, 28.9 per cent; in the third class, 25.8 per cent; in the fourth class 31.1 per cent, and outside of these cities 35.9 per cent. It is stated that the greater proportion of males in the principal cities is largely due to the greater proportionate strength of the Roman Catholic church in these cities.

ST. LOUIS.

St. Louis, June 15.—Wool, higher, Western and territory mediums, 17@22; fine mediums, 16@17; fine, 12@14. BOSTON.

Boston, June 14.—Local wool dealers are looking westward and negotiations for the new clip are rapidly progressing. Oregon stuple is being landed in Boston at 57 to 58 cleaned, with Idaho a trifle lower. Boston dealers, however, are anticipating a further decline and claim that reports from the west indicate that the new clip is short of staple wools.

There is little movement in old wool. A little territory staple has been sent away at 62 scoured. There is a slightly better demand for the foreign product.

PRODUCE.

CHICAGO.

Chicago, June 15.—Good downpours at various points in the northwest with indications of more moisture coming relieved anxiety in a measure today as to the spring wheat crop, which had been threatened with a serious setback because of a deficiency averaging 3 to 7 inches in rainfull this season. Drouth in Argentaina was also reported broken. Pine weather for harvesting in Texas and Oklahoma, tended also to weaken the Pine weather for harvesting in Texas and Oklahoma, tended also to weaken the wheat market here. Prices started ½ to ½ lower with September at 89½ to ½ and typical of the whole future list. After seiling at 89½ to ½ a reaction to 89½ % casued. There were unconfirmed reports that 590,00 bushels had been taken at the semboard for export. Moderate buying of corn by cash houses turned the market upward after an easy start due to the fine weather. September opened ½ to ½ down at 57% to 58 and then advanced to 58%.

nne weather. September opened ¼ to ¼ down at 57% to 58 and then advanced to 58%.

Offerings of oats were not large. Bullish pit traders pushed quotations up with little idficulty. September opened ½ ¼ lower to a shade higher at 34% to % and rose to 35%.

Grain houses bought provisions and in consequence the market showed a gain of ½ to 17½ at the opening. Longs sold on the swell and caused some recessions. First prices for the September delivery were 2.25 to 2.25½ for pork. 12.47% to 12.50 for lard, and 12.55 to 12.55 for ribs. Wheat—Official forecast for clear weather in the northwest ted to a good advance. It was asserted furthermore that the reported good rains were too light to be of any real value. Dulness set in, however, and the gain was not well maintained. The close was steady at 90 for September, a net advance of %. Corn—There was strong speculative huying on the part of a prominent house which has ben on the short side for months. The close was steady with September % up at 581%.

Marshall of the federal court: Carl Lupdberg, bricklayer, Salt Lake; Charles Hol-berg, laborer, Salt Lake; Arthur Secord, printer, Salt Lake; Chris B, Hanson, laborer, Calder Station; Robert A. Irvine, switchman, Ogden; Joseph F. Critchlow, brakeman, Ogden.

BUSINESS AND REALTY

A new brick building to embrace three ground-floor stores or offices, is being erected at 231 south Main at the place where the three old frame shacks vere demolished a few days ago

NO CELEBRATION PRICES HIGHER FOR THE OPENING

President Jeffery of the Western Pacific Writes Reply to Invitation.

PIQUED AT PAST CRITICISM

Takes a Rap at the Commercial Club Traffic Bureau and Its Bulletins.

President E. T. Jeffery of the Western Pacific has written the following explanation to President W. J. Halloran of the Salt Lake Real Estate association, why he can not co-operate with the association in the proposition to hold a celebration in this city in com nemoration of the completion and

memoration of the completion and opening of the Western Pacific road:

"It is very kind of the Salt Lake City Real Estate association to extend an invitation, through you, to Mr. Gould and me to attend a proposed celebration in honor of the completion of the Western Pacific railway, and, although Mr. Gould is in Europe, I am sure I can speak for him, as well as for myself, in thanking the association and its president.

"May I be pardoned for suggesting that it might be better to forego a public celebration of the completion of Salt Lake City's new trans-continental line? I notice that the inspection trip to Wendover and back by the governor and legislature last year has been misunderstood and misthe governor and legislature last year has been misunderstood and misconstrued by the Commercial club traffic bureau in its bulletins, scattered throughout the state; and a public celebration such as your association contemplates might be used to the disadvantage of all concerned by further allegations that there is some ulterior object in view."

GOV. GILLETT ORDERS JOHNSON-JEFFRIES FIGHT **JULY 4 STOPPED**

San Francisco, June 15 .- Gov. Gillett has directed Atty.-Gen. Webb to stop the Johnson-Jeffries fight on July 4.

RACE HORSES TAKEN IN TOW BY CONSTABLE

Two Geldings From Stable of Eugen Landsberg Are Attached for Money Loaned.

Walking in from the Fair grounds with two frisky race horses that danced and pranced and threatened to break away was the experience of Peter Hansen, the portly constable from Justice Hanks's court, yesterday. As the result of the visit of Constable Hansen to the Fair grounds the stables of Eugene Landsberg, who shipped in from Oakland, Monday, are minus two from Oakland, Monday, are minus two horses, Tod, a three-year-old chestnat gelding, and Usurper, a bay, three-year-old gelding, which are now spending their time at the McCoy stables until their owner digs up enough money to pay off the attachment under which they are held.

Suit was filed in the justice's court yesterday by Joe Goodman, trustee, for the Chicago Loaning company, in which an attachment was secured. It is recited that on Dec. 7, 1809, Landsberg gave a note to the Chicago Loaning

gave a note to the Chicago Loaning company for \$215, secured by a chattel mortgage on eight horses. Later, on April 10, 1910, when there was still a balance of \$110 left, two notes were given, one for \$60 and the other for \$50. As the notes are now declared to be five days over due, suit was started, and an attachment issued for the two horses.

two horses. According to Constable Hansen, Landsberg has promised to come in and settle the matter, but up to late today he had failed to appear, and the two horses continue to live off from the county without their morning work-

DRY FARM CROPS IN JUAB. Despite Lack of Fain There Will be a

Fair Harvest. P. V. Cardon, writing from Nephi to Prof. Lewis A. Merrill on the dry farm situation in Juab county with especial

reference to the acreage he superin-

"The farm is certainly beautiful, We have had no more rain but the winter grain looks fine despite the fact that a prohibition wave must have hit heaven. Some of the earlier grains will be ready to cut in two weeks. It is hard to say how they live in this dust. At night they look dull and stupid but the next morning they look as fresh and green as ever. Of course the heads are below the normal size and the kernels will no doubt be small but from all appearances a very fair yield will be obtained in the face of all that.

"The early spring grains are beginning to head out but I am afraid that they will be too small or rather too prohibition wave must have hit heave

ning to head out but I am afraid that they will be too small or rather too short to handle. The potatoes, corn and peas are having a terribly hard time to get a start. A farmer on the west side reports that his five years continuously cropped field of 100 acres is a complete failure, and he blames himself—not the soil; it takes a dry year to teach valuable lessons." to teach valuable lessons.

WATER WANTED.

Vacant Blocks Get It Plentifully, Residents Dust-Smothered.

tion of the Sugar House district was so long deferred was the fact that it would be extremely difficult to provide city water and other conveniences within a reasonable time. Now, however the water mains are being laid rapidly and the whole district is taking on a municipal aspect. A few inconsis-tencies are said, nevertheless, to ex-ist, as pointed out in a petition to the city council filed this morning by Ed-ward H. Anderson of 1868 south Tenth East.

He avers that just north of Garfield avenue there are five blocks, which though having no residences upo though having no residences upon them. Ere nevertheless sprinkled assiduously, and that Garfield avenue itself, which from Ninth East to Eleventh East contains 18 residences, is never sprinkled at all. So far also the district has been deprived of electric light service; and he asks therefore that the matter be attended to at once
